Railroads Show Much Depression

New York, N. Y., Sept. 13.—After a period of uncertainty and irregular price movements the stock market dipped downward this morning. Traders availed themselves of the strength shown in various issues early in the day to sell stocks. The demand was limited and prices soon weakened. On the second hour more determined pressure was directed against the market and the whole list gave way sharply.

On the second hour more determined pressure was directed against the market and the whole list gave way sharply.

Standard railroad stocks scored losses of a point or more in many instances, and there was a marked revival of bearish sentiment. Taik of possible dividend reductions was current in view of the unsatisfactory earnings of several systems. New Haven dropped 2% to 129%, its lowest price since 1308. Two other stocks also sold at the lowest figures since that year—Missouri Pacific, which fell back 2% to 33% and New York Central 1% to 110%. Amaigamated Copper also yielded 1%, Union Pācific and Reading 1%, and Canadian Pacific, Atchison, St. Paul, U. S. Steel, Southern Pacific and American Smeiting one to 1%. Bonds were casy.

When selling was suspended the market rebounded a slight fraction, but became almost lifeless on the higher range of prices.

Prices tumbled away again in midafternoon under a bear attack in which United States Steel, Union Pacific and other well known stocks eclipsed their previous low figures of the year. Union Pacific was driven down to 159%, which compares with 163 at the close yesterday, and 192%, the highest, on July 22.

Missouri Pacific showed a loss of 2%; Reading 2%; Southern Pacific, St. Paul, Canadian Pacific and Amalgamated Copper two and United States Steel 1%. Short covering caused a slight fractional rally.

The market closed steady. The fall in prices culminated soon after 2:15 p. m. and there was irregular recovery which amounted to a point in Union Pacific. United States Steel, however, clung rigidity to near its low level, the stock being affected in part by the less hopeful character of the trade reviews and talk that the government would begin proceedings against the company. Business shrank on the rally.
